

“Jesus is Risen” Thaumatrope

Directions:

1. Cut out the circles.
2. Glue the two circles together making sure that the pictures are **UPSIDE DOWN** with respect to each other. Match the triangles.
3. Paper hole punch 2 holes on each side of the thaumatrope at the positions that you see holes in the template.
4. Cut two 1-foot lengths of string. Thread them through each side and tie them together into a loop.
5. To work the thaumatrope, hold one loop in each hand. Swing the card away from you, turning it like a skipping rope until the string gets wound up. Then pull it tight. If you’ve done everything right, you should find that Jesus is Risen from the tomb.
